

FIKRU DIRIBA

IT OPERATIONS SPECIALIST & FULL-STACK DEVELOPER

Gambella / Addis Ababa, Ethiopia | +251 913 997 816 | Fikru.diriba28@gmail.com

LinkedIn | GitHub | Behance

PROFESSIONAL SUMMARY

Results-driven multidisciplinary technologist with over 4 years of experience managing mission-critical IT infrastructure in high-pressure humanitarian environments. Proven track record of maintaining 99.9% system uptime, delivering Level 2 technical support, and managing complex LAN/WAN operations for refugee response programs. Currently expanding technical expertise into Full-Stack Web Development and Digital Media Production, successfully engineering responsive web applications and leveraging narrative video storytelling to amplify community impact. Adept at bridging the gap between robust technological systems and human-centered digital innovation.

PROFESSIONAL EXPERIENCE

IT ASSISTANT – FIELD OPERATIONS & MEDIA

World Vision Ethiopia

Dec 2023 - Present

- Manage and maintain field ICT infrastructure supporting large-scale humanitarian operations, ensuring **99.9% system uptime** for biometric registration and critical food distribution systems.
- Maintain LAN/WAN infrastructure (routers, switches, WAPs) and deliver Level 2 technical support utilizing VPN and remote desktop tools.
- Govern ICT asset inventory for 100+ devices, manage user accounts via Active Directory/Office 365, and enforce strict data protection protocols.
- Spearhead digital storytelling initiatives, directing end-to-end media workflows and editing high-quality child participation and beneficiary videos using CapCut Pro.

FULL-STACK WEB DEVELOPER (IN TRAINING)

Evangadi Tech & Personal Projects

Aug 2026 - Present

- Engineer and deploy fully responsive web applications utilizing HTML5, CSS3, JavaScript, and Bootstrap 5.
- Design modern UI/UX layouts utilizing CSS Grid, Flexbox, dynamic typing DOM manipulation, and custom SVG animations.
- Conceptualize and produce **Edumedia**, an Amharic educational digital series, combining technical deployment with scriptwriting and video production.

CORE COMPETENCIES

ICT Infrastructure & Support:

LAN / WAN

TCP/IP & DNS

Active Directory

Office 365

Hardware Support

Asset Management

Windows/Linux

Web Development:

HTML5

CSS3

JavaScript

Bootstrap 5

React (Ongoing)

UI/UX Design

Git/GitHub

Digital Media & Data:

CapCut Pro

Video Editing

Storytelling

Data Validation

Reporting

CERTIFICATIONS & TRAINING

CONSTRUCTION REGULATORY & MONITORING OFFICER

Gambella Urban & Infrastructure Bureau

Dec 2022 - Nov 2023

- Managed technical documentation, compliance tracking, and structural monitoring for regional infrastructure projects.
- Developed structured reporting systems to support data-driven decision-making and cross-functional stakeholder coordination.

DATA MANAGEMENT & SUPERVISOR

Mulu Tesfa Association (HIV/AIDS Program)

Nov 2021 - Oct 2022

- Led data collection, validation, and reporting processes, engineering localized workflows that ensured high data accuracy.
- Provided technical support and training for data systems utilized by mobile field teams, ensuring strict adherence to confidentiality standards.
